### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Title, before "Low", insert -- A Semiconductor Device Comprising --.

1. The following is an examiner's statement of reasons for allowance: Applicant's arguments regarding the deficiencies in the prior art are persuasive to demonstrate that the semiconductor device comprising at least a dielectric layer including an air gap for location at least partially beneath an active region, a semiconductor layer formed over the dielectric layer, a trench formed in the substrate between two active regions, wherein the trench contains cells of gaseous components and extends at least partially into a level of the dielectric layer of the substrate is neither anticipated nor obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
